

“Plain-Talk™” and “Plain-Talk Plus™” - a low cost, integrated Bluetooth phone solution for BMW vehicles.

- Uses your BMW's stereo speakers
- Easy plug and play installation
- Provides radio mute function
- Increased road safety
- Enjoy handsfree calling convenience
- Stay legal while using your phone

The latest product from European Integrated Systems, Ltd is a simple, convenient, inexpensive way to add Bluetooth cell phone technology to your BMW. This unit utilizes your vehicles built in telephone wiring and capabilities. Installation and operation is straight forward. No cutting or splicing of any wiring is required and you do not need to remove your head unit for installation.

Built upon the stable and reliable Parrot Bluetooth® products, the Plain-Talk system offers superior sound quality and functionality while reducing in-cabin clutter and making the installation easier.

The Plain-Talk™ system is based on the Parrot CK3000 evolution product.

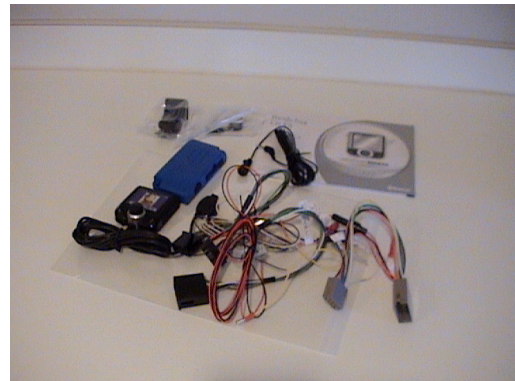

The Plain-Talk Plus™ system (recommended) is based on the Parrot CK3200 product which provides additional features including caller-id and phonebook upload for many phones.

Plain-Talk™ is brought to you from the makers of Argos™ fully integrated Bluetooth® telephone systems for Mercedes-Benz, BMW, and other fine automobiles.

Use your **Bluetooth®** Enabled cell phone with your **BMW!**

Installation of the Plain-Talk™ system is simple. You simply need to locate a couple of the telephone connectors in your BMW as outlined in the installation manual. Once you have plugged in the harnesses included with your kit, simply mount the control panel and mic in a convenient location for you. You will not need any additional wiring or hardware for your installation. Professional installation is always recommended.
