

“Plain-Talk™” - a low cost, integrated Bluetooth phone solution for MINI Cooper.

Uses your MINIs STEERING WHEEL CONTROLS • Easy PLUG and PLAY installation • Provides radio mute function and use of the stereo speakers • Increased road safety • Enjoy handsfree calling convenience • Stay legal while using your phone • No extra control panel to mount (like with MINI’s OEM kit and others).

The latest product from European Integrated Systems, Ltd is a simple, convenient, inexpensive way to add Bluetooth cell phone technology to your MINI. This kit utilizes your vehicles built in telephone capabilities. Installation and operation is straight forward. No cutting or splicing of any wiring is required and installation requires only about 30 minutes and basic hand tools.

Built upon the stable and reliable Parrot CK3000 Evolution Bluetooth® system, the Plain-Talk™ kit offers superior sound quality and functionality while reducing in-cabin clutter and making the installation easier. The Plain-Talk™ kit comes complete with the Parrot module, an interface module and all necessary wiring.

Plain-Talk™ is brought to you from the makers of Argos™ fully integrated Bluetooth® telephone systems for Mercedes-Benz, BMW, and other fine automobiles.

NEW MINI Cooper Bluetooth® system

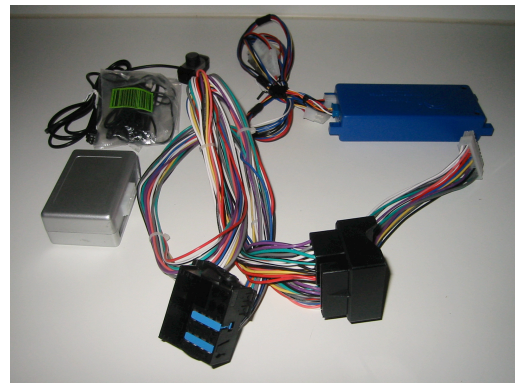

Use your **Bluetooth®** Enabled cell phone with your 2002-2008* **MINI!**

Why use the Plain-Talk™ system?

- Installation of the Plain-Talk™ system is simple. You will not need any additional wiring or hardware for your installation. Much faster/easier and less intrusive than the “other” options like the MINI OEM accessory kit.
- Steering wheel controls! No other solution for non-nav Mini’s provides this! No need for an extra control panel to be mounted on your dash.
- Professional installation is always recommended.

Your MINIs Steering Wheel controls will allow you to answer a call and hang up, activate voice control, take the call private, or to redial the last number called.

Your radio will mute during a call and you will hear the incoming audio over your stereo speakers. Your phone will connect to the Plain-Talk system automatically when you start your vehicle and disconnect when you turn the key off.

*starting with 03/02 production w/o HK Audio, 09/03 production w/HK Audio.

New body style 2007+ models R56 available 8/07 - must not have keyless start.
